Dear Members of the City Council,

My name is Livingston Pita Unga, and I have lived in this area since 1974. I went to school at Kahuku and I consider the Koolauloa my home and am writing to express my opposition to Bill #1 and am seeking your understanding and approval to amend it to allow more housing.

Surveys have been conducted to show the overcrowding of the homes in this area, especially Hauula, Laie and Kahuku and consideration to allow more homes to be build will help alleviate the pressure many of our families are put under.

Many of our young generations and kupunas do move out because of the lack of housing, yet they miss out on the quality environment, ohana life that can only be found around here. Thus I am asking that you amend Bill #1 to accommodate the building of the 700+ so our children and grandchildren can come back home to enjoy this beautiful place we call home.

Sincerely,

Livingston Unga
